Prof. Comstock of the University has been on a visit to the coal fields of the Chiricahu. mountains lying be tween Fort Bowie and Galeyville. These coal fields have attracted much attention in previous years. They were worked by the Copper Queen Co. and also by Tombstone capitalists, who gave them up after spending considerable money on them. The Citizen in speaking of the coal, says:

Dr. Comstock brings back with him unmistakable evidences of the existence of coal in a bed five or six feet in thickness, in a situation which leaves no doubt of its close relation to the anthracite coal of Penusylvania. Analyses will be ma e at once in the school of mines laboratory, but the fuel qualities of this semi-authracite have oeen already proved to be good.
